Especificación:

Poste Cónico Circular, fabricados en una sola sección con un solo cordón de soldadura y penetración mínima de 80% bajo el proceso GMAW, y cumple con los requerimientos de AWS D 1.1, 2006, garantizando de esta manera la uniformidad, fusión y penetración indicada en este código, evitando los defectos de discontinuidad, porosidad, socavado, falta de fusión y falta de penetración.
Sin anillos o cartabones en la placa base.
Libre de marcas como tableteo, pandeamiento, torcimiento o golpes.
